The Annual Report has been filed with the Employee Benefits Security Administration, U.S. Department of Labor as required under the Employee Retirement Income Security Act of 1974 ("ERISA").

As required by ERISA Section 104(d), the following information is provided with respect to the 2013 Plan Year:

Local Union No. 203	Journeyman Apprentice	\$ 6.74 per hour worked 60% to 90% of the Journeyman Rate

2. The normal monthly retirement benefit under the Plan is based on the pensioners total credited service earned throughout employment. Credited Service is the sum of a participant's past service and future service. Past pension service is granted for full years of employment, including subsequent periods of lay-off and authorized leaves of absence, worked prior to June 1, 1976 for which contributions were not required. This is calculated based on the benefit level in effect for the Local at the time of retirement. Future pension service refers to service received for hours worked for a contributing employer after June 30, 1976.
